

CIVILS & STRUCTURES

SUBSTATION BUILDINGS FOR
GG6 EXPANSION PROJECT

CLIENT:

Exxaro

LOCATION:

Lephalale, Limpopo

COMMENCEMENT:

August 2017

COMPLETION:

November 2018

PROJECT OVERVIEW:

Stefanutti Stocks Civils and Axsys Projects – a Voluntary Rebuild Programme (VRP) partner to Stefanutti Stocks – formed a joint venture for the construction of a pump station, small coal substations and a free-standing transformer bay structure at Exxaro’s Grootegeluk Coal Mine in Lephalale.

The scope of work included the earthworks, foundations, concrete and masonry structure, building works, wet trades, roofing, small power lighting, distribution boards, HVAC, fire protection, signage erection and commissioning of the substation buildings.
