

BUILDING AND HOUSING

MERCEDES BENZ SOUTH AFRICA (MBSA)

J-SITE WAREHOUSE & NEW GATE 2 COMPLEX

CLIENT:

Mercedes Benz South Africa (MBSA)

LOCATION:

East London, Eastern Cape

COMMENCEMENT:

April 2017

COMPLETION:

15 June 2018

PROJECT OVERVIEW:

A Stefanutti Stocks, Axsys Projects and Botani Construction Joint Venture completed the contract for the turnkey design and construction of a new 22 000m² logistics building on J-Site, as well as a new Gate 2 entrance to the Mercedes Benz East London Plant.

The scope of works included design and construction (based on the client's technical specification), obtaining the permits and local authority approvals, bulk earthworks, lateral support, external works including access roads, hardstands, structural steel and metal cladding.

The joint venture was also responsible for the warehouse's full mechanical, electrical and piping scope.
