

BUILDING AND HOUSING

RENOVATION AND ALTERATION WORK TO NORTHERN CAPE HEALTH FACILITIES

CLIENT:

20Twenty Projects (on behalf of Department of Public Works & Health)

LOCATION:

Northern Cape (ZF Mgcawu District)

COMMENCEMENT:

October 2017

COMPLETION:

Expected November 2018

PROJECT OVERVIEW:

Axsys Projects has undertaken the renovation and alteration work to thirty-one health facilities in the Northern Cape, ZF Mgcawu district.

Axsys Projects' main focus during this contract was to renovate existing health facilities, in order that they may function as clinics and hospitals servicing the local communities. Axsys Projects' responsibilities included upskilling local contractors' in all facets of construction including quality, production, safety and commercial.

A major drive included employing local contractors between a GB level 1 – 4 and attempting to grow these smaller companies into larger more competent and efficient contractors in the Northern Cape.

Development initiatives included:

- Transfer skills to subcontractors: quality, production, safety and commercial.
- Send all subcontractors on safety training workshops provided external service providers.
- Grow all subcontractors by at least 1 GB level.
